C.B.S.E.
Matriculation (2009)
Govt. Boys Senior Sec. School, Andrews Ganj, New Delhi
C.B.S.E.

PROJECTS

Hotel Management System
The main objective of this project is to Manage Customers details and their Payments details. HMS provides a good insight on how systems work as well as an intuitive graphical user interface.

Real Time Face Detection and Recognition System
We have worked on both face recognition and detection techniques and implemented algorithm for them. We recognize an unknown test image by comparing it with the known training images stored in the database.

Human Activity Tracking and Recognition System
We have designed a robust activity recognition system based on a smartphone. Our results show that the classification rate of passive learning reaches 96.4% and it is robust to common positions and poses of cellphone.

Resume Portfolio website
Created a portfolio website for myself to showcase my skills of Web Development.
